PROFILE

I am a student enrolled in a Master's Degree in Computer Engineering. During my university career, I gained knowledge in Machine Learning, Deep Learning, Data Analysis and optimization techniques. Through various university projects, I developed practical skills with different programming languages and I had the opportunity to explore the field of AI. In addition to my academic background, I performed Meet & Greet activities at the "Costa Crociere Terminal". This experience allowed me to improve my communication and relational skills, also helping to develop the sense of teamwork. I stand out for my attention to detail and my methodical approach to work.
